

AN OUTSPOKEN GOLDITE.

An interesting letter from Senator Stewart to Hon. J. C. Hendrix, President of the National Union Bank of New York City, is printed in the JOURNAL. Mr. Hendrix was a member of the 33d Congress and fought for the single gold standard from first to last. In a recent speech at the manufacturers' banquet at Brooklyn he used plain and bold language. He says: "We have fooled with schemes and accepted compromises we have gone from bad to worse and we must now take a stand for a final and decisive battle. The New England and Middle States and the country north of Mason & Dixon's line, and east of the great rivers, are ready to throw off all party trappings and meet the issue. No more Janus-faced platforms, no more Lord-Lord devil leaderships, no more shifting, dodging, tripping or time serving among Presidential candidates. Let the silver men choose their man, let the gold men choose their man and let the people decide."

That declaration is manly if nothing more, and it is to be hoped that Nevada gold men, who are masquerading under Republican and Democratic disguises, will be as outspoken. The issue of issues is the monetary question, and for the time it subordinates all other questions. With the volume of money constantly contracting times cannot materially improve or the prices of products increase to any appreciable extent. Those who are against the free coinage of silver at the historical ratio should throw off all party trappings in elections as they have done in Congress and array themselves with the money powers, where they belong, and those who believe in the double standard and the money of the Constitution do likewise and meet them on the stump and at the ballot box. The absurdity of men who profess to be in favor of the unrestricted use of gold and silver as money posing as members of the parties which acknowledge Cleveland and Sherman as their leaders must be apparent to everybody who is capable of giving the subject a moment's intelligent thought. Let us, therefore, take up the gage of battle thrown down by President Hendrix, who is an acknowledged champion of the Gold Trust, throw off all party trappings and meet the issue and have done with it.

VETOED BILLS.

Governor Jones has sent three bills to the Secretary of State's office without his approval. These are Assembly bill 95, relating to the locating, recording and working of mines, mineral deposits, and for other purposes; Assembly bill 162, to encourage the mining industries of the State of Nevada, and Assembly bill 67, allowing the payment of taxes in semi-annual installments and regulating the collection of taxes on personal property.

The Governor's objections to the first bill are that it makes new and unusual requirements for locating lode and placer claims, which are inconsistent with the mining laws of the United States. He believes "the other purposes" clause in the bill means the promotion of endless litigation as it would lead to confusion and trouble.

To the second bill his objections are that the bill is ambiguous, unintelligible and uncertain and if approved it would be ineffective and void. The objections to the third are that it is impracticable in its provisions and would not meet with any favor from the average taxpayer and would be declared inoperative and void by the courts. It would also conflict with the revenue laws of the State and therefore retard the collection of taxes while resulting in no practical benefit to the general taxpayer, although possibly it might be advantageous to the wealthier class, of whom, unfortunately, there are but few in Nevada. Therefore, believing that legislation should afford the greatest good to the greatest number, he withholds his approval of the bill.

THE MINNESOTA METHOD.

"No State shall, without the consent of Congress, lay any imposts or duties on imports or exports," says the Constitution of the United States. The Minnesota Legislature proposes to evade this inhibition by the enactment of a law under the guise of a measure in the interest of the public health. A bill which is now before the Legislature of that State provides for the inspection of cattle, sheep and hogs or any part thereof brought into the State for sale. For inspection of slaughtered cattle the fee is twenty-five cents for each carcass or part thereof and ten cents for hogs and sheep. It is held that every side of bacon would have to be inspected and would be taxed ten cents. This would virtually exclude meats from Illinois, Nebraska, Iowa and other States as every piece of beef, pork or mutton would have to be inspected and stamped.

Complaint has been made against Germany, France and other European nations for discriminating against American cattle and meats, but no more restrictive regulations have been prescribed for the exclusion of American meats from foreign countries than those proposed by the Minnesota Legislature.

Reports from Carson are to the effect that the Governor has not yet approved the Fish bill passed by the Legislature, and many persons hereabouts express the wish that he will veto it.

CAPITAL NOTES.

Legislative Aftermath—The Mint shortage calamity—Tony Kramer's Misfortune—A Few Attitudinious Personalities.

Carson City, March 23, 1895. There have been no new or sensational developments in the mint shortage matter the last day or two. Andrew Mason, the Government expert, is working steadily at his investigation, the assaying of the bullion, etc., going actively and quietly ahead under his personal supervision and direction, he making his own figures. If there were any bogus bricks passed down from the preceding administration he will find them if it takes him a month. The figures published, \$64,180, stand good, but his final report is anxiously looked for by everybody. And everybody will have to wait.

Meanwhile detectives come and go, and every stranger is suspected of being a detective. Curtin, Chief of the San Francisco Detective Bureau, left last evening. General Keating came down from the Comstock yesterday and he and the head officials of the Mint went into executive session with closed doors. Everybody connected with the Mint keep closed mouths.

But the people of Carson all express deep apprehension that the end of the trouble will be the closing of the Mint altogether. It was closed under Cleveland's former Administration and the \$1,000,000 hoisted away. It can be closed again now and \$6,000,000 hoisted away.

ACTS APPROVED, VETOED, ETC. In the published list of Acts passed by the recent Legislature an error occurred making S. B. No. 67, appropriating \$15,000 for the construction and furnishing an annex to the State Insane Asylum. That bill was approved by the Governor on the 11th inst.

The latest approved by his excellency this week are:

A. B. No. 119—Acceptance, selection and disposal of public lands granted by the United States to Nevada.

A. B. No. 128—Relative to holographic wills.

Substitute for A. B. No. 147—Consolidating certain Lyon county offices.

A. B. No. 117—The Colored Portrait bill.

S. B. No. 77—Teacher's certificates by County Boards of Examiners.

Following are the five bills vetoed by the Governor:

A. B. No. 67—Payment of taxes in equal semi-annual installments. He considered it impracticable in its provisions and would result in no practical benefit to the general taxpayer, but more to the advantage of the wealthier class, capitalists, large land holders, etc.

A. B. No. 162—To encourage the mining industry of Nevada.

A. B. No. 95—To provide for the location, recording and working of mines and mineral deposits.

Sub. for S. B. No. 58—To facilitate the giving of bonds required by law.

S. B. No. 67—Amendatory of Act concerning official bonds, by adding another section to it.

The objections to this last bill covered the two and was as follows: That the present law regarding sureties on official bonds having already received judicial interpretation and the liability of sureties therein fully determined, I consider it unsafe to have the same interfered with, believing it might necessitate interminable future litigation.

S. B. No. 49—Summerfield's Income Tax bill, is the only one of the 113 bills not passed upon and remaining in the hands of the Governor.

S. B. No. 59—Appropriating \$250 for the relief of A. T. Kramer, the blind printer, after passing both Houses, in the hurry and confusion of the closing of the session, got carelessly pigeon-holed instead of going to enrollment, therefore poor Tony cannot get the money so much needed for himself and large family. The next Legislature, two years hence, will correct the blunder and give him the money—if he is alive to receive it.

SOME TALL NEVADANS.

The well-known Rayercraft brothers—eight of them—here in Carson, average six feet, two inches in height, the youngest being only six feet as yet, while his three eldest brothers are 6 feet, 2½ inches each. The aggregate length of the whole lot is 49 feet, 6 inches.

Charley Stone, born in Gold Hill and raised in Carson, will be 20 years old in May and has attained the height of 6 feet, 6 inches, being the tallest young man in Carson. Noble Jefferson, an old-time Carsonite, measured half an inch shorter. W. J. Holmes stands 6 feet, 4 inches.

Of the tall young ladies in Carson there are half a dozen or more who average over six feet, equaling the family of tall young ladies in Reno. A very substantial Carsonite stands 6 feet, 2½ inches high, weighs 247 pounds and is J. F. A. B. Lynch.

Colonel Hardesty of Elko, now visiting Carson, stands 6 feet, 5½ inches, and Pat McNamara, the tallest man on the Comstock, 6 feet, 7 inches, when he straightens up, same height as the 18 years old cadet boy in the State University.

GEMS FROM JEFFERSON.

Wise sayings of a Great Man.

Science is more important in a republican government than in any other. We often repent of what we have said, but never of that which we have not said.

Education is the only sure foundation that can be devised for the preservation of freedom and happiness.

Never suppose that in any possible situation or under any circumstances it is best for you to do a dishonorable thing.

I profess so much of the Roman principle as to deem it honorable for the general of yesterday to act as a corporal to-day if his services can be useful to his country.

Were it left to me to decide whether we should have a government without newspapers, or newspapers without a government, I should not hesitate a moment to prefer the latter.

The functionaries of public power rarely strengthen in their dispositions to abridge it, and an organized call for timely amendment is not likely to prevail against an organized opposition to it.

I believe this the strongest government on earth, the only one where every man at the call of the laws would fly to the standard of the law and meet invasions of the public order as his own personal concern.

A Pleasant Surprise.

Miss Belle Treadway, a niece of Prof. Ring who has been visiting friends in Reno for sometime, was the recipient of a pleasant surprise last evening.

The young people gathered at the residence of Mr. and Mrs. Orr, and the evening was spent in games and recounting the events of old school days. A splendid collation was served, and at a late hour after many good wishes were expressed for the young hostess good nights were said and the event was a sweet remembrance in their young lives.

VIAGI TABLETS.

Viagi is now being prepared in a special form for the stomach. We have realized for a long time that the membrane of the stomach, being similar to the membrane of other portions of the body, could, if this remedy were applied in a pre-digested form, be greatly strengthened. The preparation has the same action in the stomach as the natural juices, whose strength has been decreased when stomach trouble exists.

To prepare Viagi in this form has taken nearly two years of constant effort, and it is probably the only instance on record where a preparation has been made in a form already digested, requiring no action or effort on the part of the system to assimilate it.

The Tablets should be used whenever there is inflammation, congestion, or catarrh of the stomach and bowels. Indigestion, properly speaking, is a catarrhal condition of the stomach and bowels and prevents them from changing the foods into the proper substances for absorption.

Saved Her Life.

Mrs. C. J. WOODBRIDGE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I resorted to such remedies as I could find. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and a most wonderful result. From the moment the Pectoral was given, the child's breathing grew easier, and in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life.

THE LANGUAGE OF THE STANDARDS.

Gold, Plain Language of a New York Banker. — Stewart's Reply to his Speech.

UNITED STATES SENATE, WASHINGTON, D. C., March 16, 1896.
Hon. Joseph C. Hendrick, Pres't National Union Bank, New York City, N. Y.
—DEAR SIR: The many flattering notices of an address delivered by you a few weeks ago at the Manufacturers' Banquet in Brooklyn attracted my attention and led me to procure the address, which I found published in *The Financier* of February 25, 1896. I have carefully read the published report of your address and congratulate you on the frank and outspoken manner in which you present the issue. You say:

"As we have fooled with schemes and accepted compromises we have gone from bad to worse, and now, in the absence of international settlement, must take a stand for a final and decisive battle in this country. Lincoln said that this country could not remain half slave and half free. Freedom or slavery had to go. Nor can it remain in doubt as to its ultimate standard of value. Gold or silver will have to win the contest. Secession and slavery fought on the same lines. They are buried beyond the reach of the resurrection trump. Silver belongs to both of them as an issue in American politics. If there is to be a battle of the standards fought out at the next Presidential election, we of the New England and middle States, and of the area north of Mason and Dixon's line, and east of the great rivers, are ready to throw off all party trappings and meet the issue in the common interest of our republic and be done with it. No more Janus-faced platforms, no more Good-Lord-Good-Devil leadership, no more shifting, dodging, trimming or time-serving among Presidential candidates. Let the silver men choose of their number. Let the single standard men choose of their number, and then let the American people decide."

SENATOR STEWART'S REPLY.

I hail the bold language which you employ. I rejoice that your position is endorsed by the bankers and gold press of New York. I am glad that those for whom you speak are at last willing to abandon their tactics of fraud and cunning and do battle for the classes in the open field. If your language had been employed in 1873 there would have been no battle of the standards. If you had told the people of the United States twenty-two years ago last February that you would destroy one-half of the world's money by excluding silver from the mints for the purpose of enhancing the value of the other half, and doubling the obligations of contracts, no man in either House of Congress would have dared to have been a party to deceiving the American people by smuggling a provision in a codification law demonetizing silver. Every step that you have taken to enhance the value of money and depreciate the price of property by the destruction of silver, has been accomplished by the methods which you now condemn.

It may be that the gold combination which you represent is strong enough to throw off all disguise and appropriate the earnings of the masses by force without strategy. I have known for many years of the combinations of the monarchs of the old world with the gold trust on both sides of the Atlantic to destroy democracy throughout the civilized world by monopolizing the circulating medium, creating falling prices, want and dependence. I have been aware of the union between hereditary aristocracy and gold monopoly to reduce the masses to subjection through misery and want. I had not supposed that the combined forces of monarchy and goldocracy were sufficiently confident in their power to crush the people, to proclaim their purpose and throw off the mask. I did not know that their contempt for American manhood had made them so arrogant as to suppose the people of this country would submit without a struggle, or that the people were sufficiently impoverished to make resistance to the gold power impossible.

THE GOLD COMBINATION.

You have great advantages. Every monarch and every money changer of Europe is in your combination. You have on your side the allied banks of Europe and America, the press, the telegraph and the railroads controlled by the banks. You have two great parties—one called Republican and the other Democratic, and you control the machinery of both. You have prestige, power, money and influence. You have the accumulations of seventy millions of people, inhabiting a country of boundless resources. Your class have every means of misleading the people, and you have been for the last twenty years masquerading as their friends and as friends of bimetalism; and by your deception and cunning, you have impoverished the masses and sent want and misery to every household in the land.

But you over estimate the power of gold monopoly, which on the surface seems omnipotent. You own everything but the people of the United States. You have impoverished them by deceiving them; but you do not own them. Your open declaration that you will make them slaves will put them on their guard. Your declaration of war will be accepted. The gauge of battle which you have thrown down will be taken up, and the question will be settled in the campaign of 1896. As you, in effect, predict, there will be arrayed on one side the aristocracy and money powers of Europe and America, and on the other, the American people, born to be free, whom you would make slaves. Under a new declaration of independence against monarchy and money, the fight will be made by a liberty-loving people who have for more than a hundred years succeeded in every contest against wrong and oppression.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

It is natural for you to feel strong in your surroundings. You know the combination of money and the power of aristocracy in which you move and have your being. But you do not realize the power of the spirit of liberty in this country, nor the deep resentment for the wrongs which you have inflicted upon the American people. Because you have destroyed one-half of the metallic money of the world and control the other half, you think the people are powerless to restore the money of the Constitution and regain liberty and independence. Because, by contraction of the money volume, you have created falling prices and closed every door of enterprise and cut off all opportunity for the young and ambitious to acquire an independence, you think that you have subjugated the people. Because you have deprived the farmers and the mechanics of money with which to educate their children, and young men of opportunities to acquire wealth honestly whereby they can become independent and self-respecting citizens, you think you have destroyed their manhood, and that they will willingly submit to the hard conditions which tyranny and avarice impose. You are mistaken.

The money of the Constitution will be restored. Independence and prosperity will again bless the land which our fathers dedicated to freedom. The party machinery which you control with your banks, your newspapers and your tracking politicians will avail you nothing. You have made the names "Republican" and "Democratic" which in their origin signified government by the people, odious to the people by using them to build up a gold aristocracy.

THE OLD PARTIES.

Neither of the two old parties has succeeded for the last fourteen years upon its own merits, but its success has depended upon the shortcomings of its adversary. Each party has relied for success upon the wickedness of the other and the outs have always had an unlimited capital in the misconduct of the party in power. The reason is, you have controlled both parties and made them instruments of fraud and oppression until the names of both become a stench in the nostrils of honest men.

You are right. Change the name. Call it "Gold Party," and come forward to do battle. You have disgraced those honored names. But if you think that the name of Gold Monopoly can be made popular with the masses, your estimation of the manhood of the American people is an insult to all who have fled from the oppression of the Old World to plant the tree of liberty in the New.

Your condemnation of the stealthy methods employed by the Sheremans and the Hoopers, which deceived Grant, Thurman, Blaine, Holman, Boggs, Conkling, Allison, Voorhees, Beck, Hereford, Howe, Cameron, Burchard and Garfield in 1873, and secured the demonetization of silver, is severe. Your repudiation of the Janus-faced platforms, Good Lord-Good Devil leadership, and shifting, dodging, trimming and time-serving Presidential candidates, is timely. Your description of old party platforms, old party leaders, and old party Presidential candidates is accurate. Your advice to let the silver men choose of their number will be followed. Do not fail to follow your own advice, to let the single gold standard men choose of their number, and then let the American people decide. Relegate to the rear the Sheremans, the Reeds, the Harrisons and the McKimleys of the Republican party. They may have been useful to you in the past, but none of them come up to your standard of the leader of the gold monopoly.

THE MAN FOR THE PLACE.

President Cleveland is your man. No other man in either of the old parties answers your description as the commander-in-chief of your wealth-absorbing armies. He is your friend, and the friend of every member of the gold combination on both sides of the Atlantic. His name is a household word in the privy councils of monarchs, and in the counting houses of money changers. The people have felt his heavy hand and his name is heard with dread in every humble household. His power for evil is well known. He is more to be dreaded and feared by the toiling masses than any other of your number. In a campaign of intimidation and oppression, no known leader can be compared with him. He would not falter until the power of aristocracy and the resources of money were exhausted.

Yours, for the combat,
W. M. STEWART.

Choice Spring Goods.

Business was brisk at Enrich's dry goods store yesterday. The clerks in the various departments were as busy as bees in alfalfa blossom time attending to customers and unpacking a large consignment of new Spring goods of the latest and most stylish patterns. Among the cotton fabrics are taffeta moire, drap de Vienna, creponette and japonette. There are elegant satens, llamas, challies, delaines and ducks—just the articles for stylish Spring wear.

THE TRAIN WRECK.

Passenger Train No. 1 Derailed Last Night Between Floriston and Mystic.

About the time that passenger train No. 1 should have arrived here last evening a report came that an accident had occurred west of Verdi. The first reports were that a terrible smash-up had taken place and from fifteen to twenty persons had been killed or injured. Several who had relatives or friends on the train were greatly worried, and in a short time a large crowd had gathered at the depot. It took some time to get at the facts and finally it was learned that a wreck had taken place and the engine, mail and express car had been derailed near Mystic, some seventeen miles west of here and that Engineer Geary and his fireman were injured, but not dangerously, also that mail agent Roundy was seriously hurt. Passenger train No. 4, west-bound, was side-tracked here, and at 10:45 a wrecking train with crew and Superintendent Agler passed through, having made the run from Wadsworth in an hour and ten minutes. A wrecking train was also dispatched from Truckee. The wreck was caused by the engine striking a large boulder which had rolled from the side hill on to the track. It was not known at 1 o'clock how long it would take to clear the track, and from the location it was thought that it would be a difficult matter to build around the wreck. It is probable that trains will be running through all right this morning.

MINT MATTERS.

The Gold Bugs Supposed to Have the Best of It.

Hon. H. H. Beck returned from Carson yesterday. When interviewed by a JOURNAL reporter regarding the latest developments in the mint affair he said: The detectives are busy endeavoring to trace the missing bullion and they have not yet definitely decided whether the missing bullion was taken by the present administration or the late Legislature. The natural supposition is that the gold standard men took the gold bars and that the silver men got away with the silver bars. As is usual in cases of that character the goldbugs are believed to have the best of it. The inspector and mint officials are as silent as clams and if they know anything more than what has been published they keep the knowledge to themselves.

Unity social.

Another of those pleasant socials was held last evening in Library Hall. A goodly number were present to listen to the lecture on "Hypnotism" by Mrs. Maynard introducing the exercises of the evening. Mrs. Maynard at one time boarded in the family of a physician who studied hypnotism with some of the most eminent professional and scientific hypnotists in France and Germany, and who now uses it in his medical practice and is himself one of the most eminent hypnotists in this country.

In her lecture Mrs. Maynard traced the history of the phenomenon and cited many curious cases, many of which had come under her own observation she spoke of its value as a therapeutic agent, and told of many cures effected through its use. She also called attention to the fact that it was now generally believed by students that it was impossible to make a suggestion to a patient during hypnosis strong enough to overcome his character or to induce him to commit a crime which would be utterly repugnant and abhorrent to him while in his normal condition. Also that it was unnecessary to induce complete somnambulism or clairvoyance to secure action on the part of the subject in accordance with the suggestion. This being true, she said that we should all see to it that our influence upon and our suggestions to each other are good and not bad. We cannot over-estimate the importance of this.

THE VAUGHN CASE.

Why the Defendant is Granted a New Trial.

The Supreme Court has granted Alpheus Vaughn a new trial. Vaughn was convicted of the murder of William Litster at Boone Canyon, in Lander county, and the grounds upon which he was granted a new trial are given by the Carson Appeal as follows: "The Supreme Court held that the lower Court had erred in instructing the jury that the use of dangerous weapons under provocation is always evidence of malice aforethought. The Supreme Court held that the intention to kill does not necessarily indicate malice as the killing may have been justifiable. The trouble occurred over the right of two families to use a certain gate as a free passageway between fields. The lower Court held that the passing of the defendant through the gate was a misdemeanor. While this was correct as a matter of law, it tended to create a prejudice in the minds of the jury regarding the defendant, as he was being tried for murder and not for passing through the gate. On these two points the case was reversed and a new trial granted."

The Funeral of E. W. Jameson.

The funeral of E. W. Jameson took place at Whitaker Hall at 1 o'clock yesterday afternoon. There was a large attendance, there being many of the teachers and students of the University present. The Reverends Mr. and Mrs. Maynard officiated at the funeral. A quartette of the students from the University rendered appropriate music and were highly commended.

In the Royal Army

Considered Incurable by Garrison Physicians

But Perfectly Cured by Hood's Sarsaparilla.

"I was severely afflicted with Salt Rheum three years ago, when I was in the English army. I was in one of Her Majesty's garrison hospitals, and as four physicians could not cure me, I was discharged, and as soon as I was able I came to this country. On the voyage over we had a rough storm, and by a sudden roll of the ship I received a blow on my forehead which broke the flesh in one of the old places over the right eye, where there had been several running sores. The new sore increased in size and I was in a bad condition when we arrived. It would often nearly heal over, but each time break out fresh again. After being at this place some time, an acquaintance advised me to take Hood's Sarsaparilla. I bought a bottle and after a few doses I realized that it was benefiting my case. Gradually the sores healed and entirely disappeared. I took six bottles altogether and found that it had cured me, helped my indigestion, and given me new life. A. G. MORRIS, Green River, Wyoming. Hood's Sarsaparilla is sold by all druggists, \$1.50 for \$5. Prepared only by C. I. Hood & Co., Lowell, Mass."

Hood's Pills become the favorite cathartics with everyone who tries them, 25c. per box.

Don't be Fooled by the "Octopus."

Bender and Fish, the Insurance Agents, claim to be the "Opposition" in the fight with the "Octopus" Board Combine.

They say to those insured and those wanting insurance—don't be fooled by the sensational Dodgers circulated by the "Octopus" but call on them and receive the benefit of the lowest cut rates that may be offered, and for which they alone are entitled to credit.

Bender and Fish are the real friends of the insured for they are standing by them and they have no fear but that the people of Reno will stand by them in return. This is proven to their entire satisfaction by the results of the contest with the "Octopus" since the war started. *

NEW YORK IS PERISHING.

A Chicago Paper Says That Gaugre is Eating Out the Vitals of Gotham.

New York is perishing of gaugre. The phlegm of some of the Dutch, the greed of some of the British and the purchase money of some of the mercenary Hessians of the Revolutionary time all contribute to the wretched compound that found way into the veins of the community on Manhattan.

New York gaugre became rancorous when it perceived that upon the prairies, growing steadily at the foot of the great lakes, a community, simple, vigorous, persistent, industrious and patriotic. Today Chicago is at her shoulders with no feeling but kindness, but without return except in jealousy and meanness.

Because Chicago has got a new post-office building and New York has failed to get one New York is livid toward Chicago. Because Chicago retains the Indian warehouse, when its transfer was promised to New York, more mortification sets in in new lands. Because Chicago journalism refuses to accept dictation from New York, New York scolds like a beldame.—Chicago Herald.

Selling Daughters.
The Indian is unclean in his ways, but he has learned a thing or two from the white man. One near Tacoma has tried to sell his daughters as the result of a game of chance, and of course the end is duly shocked. Why? He has the precedent of society—"cultivated" society. Daughters are sold almost every day in New York and Europe, and even in Chicago. The Indian, having lost all he had gambling, offered his daughter for \$500, with which he hoped to be able to recoup his losses. It is often the same with the man of civilization. He loses all he has in speculation and immediately looks around to see who will give the most for his daughter. She goes to the highest bidder, and he goes back to speculation. What is the difference between the two cases? Nothing, except that the Indian offered his daughter for less money.—Chicago Post.

Peter the Great of Russia is said to have known by name every officer and soldier in his bodyguard of 1,000 men.

Of Interest to All.
"During dangerous weather of this sort," said the old doctor, "the most careful persons are apt to catch a cold in their chests that will extend swiftly to the lungs if not attended to. It usually makes its presence known by a restricted sensation just under the breast bone, where the flesh is the thinnest. When a person experiences this feeling, he can rest assured that he can procure almost instant relief by drinking a cup of water as hot as he can bear to take in the mouth and to swallow. There is no better medicine in the world to arrest the progress of a cold than hot water, and, besides its effect upon the stomach and the system generally, it is beneficial in the highest degree. And in sore throat the remedy will be found almost a specific."—Washington Star.

Not as Gritty as a Hen.
William Godson of Albuquerque, N. M., has given up his attempt to sit in a chair perfectly quiet for 12 consecutive hours for seven days and loses a bet of \$100. When he left the chair, he was pretty nigh played out. His limbs were swollen, and it was painful for him to move his arms and neck. His eyes were badly strained, and he presented a worn-out appearance. He sent word to his backer that he was more dead than alive. In fact, he is now under a doctor. He stood the test for five days, making 60 hours.—St. Louis Globe-Democrat.

Indian's Suit For Loss of His Hair.
Hoit Solt, an Indian of the Umatilla reservation, had his hair cut off by the Indian court last week for drunkenness. He bore the same affliction 18 months ago, but since then it has been decided that Indians to whom lands were allotted in severally are American citizens. Hoit Solt comes under this head, and so he brought suit against the Indian officer who cut his hair, claiming \$200 damages. He won his case, but the defendant will appeal to the higher courts.—Seattle Post-Intelligencer.
